

## CAP 5300, Project: Preliminary Planning

Please refer to “*Presentation\_Expectations.pdf*” file for more detail, but in this report, simply do the following:

1. Mention the variable that you plan to use as your response variable of interest in part (2) of “*Presentation\_Expectations.pdf*”.
2. Mention the variable that you plan to use as your categorical explanatory variable of interest in part (3) of “*Presentation\_Expectations.pdf*”.
3. What variables will you use for the two-sample test in part (4) of “*Presentation\_Expectations.pdf*”? It’s OK if those are the same as your answers to 1 and 2.
4. Which of the tasks outlined in part (5) of “*Presentation\_Expectations.pdf*” do you plan on performing? Describe it.
5. How do you plan on distributing the workload? E.g.  
"Member 1 will be working on parts 1 – 2, member 2 on parts 3 – 4, member 3 on part 5.  
Or  
"Members 1 & 2 will work on data question parts 1 – 3, while member 3 will work on parts 4 – 5.

The report should be

- **no more (!) than 2 pages long.**
